

M.A./M.S. in Applied Economics General Applied Economics Sequence

Department of Economics
Example Plan of Study

The **Applied Economics** sequence is designed to train students in the quantitative and applied economic skills that will best enhance their future employment opportunities as economists, research analysts, or planners in the private and public sectors. While the curriculum is structured as a terminal degree in applied economics and many graduates have advanced to doctoral-level programs in economics and related disciplines, the program is also well suited for individuals who wish to return to school to obtain a graduate degree in a business-related discipline for the purpose of career advancement.

This is a 34-credit hour sequence. The deadline for the Fall Semester with financial support consideration is **March 15**.
